

## **PPG MEETING MONDAY 1<sup>st</sup> JUNE 2020**

Sandra spoke to Tony and June on the telephone as we are unable to have a PPG meeting because of covid and we will not put our members at risk inviting to a meeting at the moment.

We have lost a couple of members and have added to our new registration form to see if anyone is interested in joining our group.

The practice is following all of the government guidance and is having regular meetings with staff and doing risk assessments with changes recorded.

Doctors are mainly doing telephone triage appointments and seeing patients if they feel it is necessary, if they have suspected covid then they will be asked to attend a hot clinic.

We continue to do clinics for cervical screening and childhood immunisations.

Our of our Nurses who is at risk from face to face contact with patients is calling our patients that are most at risk to ask if they are alright and if they need anything.

Reception is very busy inviting patients for covid vaccinations and dealing with queries related to the vaccinations, patients wanting the vaccination earlier than government guidance.

We will have a meeting when it is safe to do so.
